Light

We would like to use the light kit provided by the venue but bring our own light board.
We hang clusters of light bulbs from the grid, which we connect to the dimmers of the theatre.

Sound

We would like to make use of the front of house. A sound board, mics and wireless supplies will be provided by us. Depending on the venue size, microphones are hung above the grand piano to amplify the sound.

Stage

We will use the masking of the venue, and need wings on either side of the stage of at least 1 meter. Please note that smoke is produced on stage during the performance.

Piano

We would like to use the grand piano of the venue. A Steinway, Yamaha, Kawai, Bösendorfer or Fazioli has our preference. We would also like to make use of two piano stools. We kindly ask you to have the piano tuned at 440 or 442Hz. prior to the first show. The costs of the first tuning are at the expense of the theatre / booker.

The piano is moved from center stage left to front stage right during the performance.

Company

The company consists of 2 dancers, 2 pianists, 1 actress, one technician and a tour manager. On performance days we need access to the stage at least 2,5 hours prior to the performance in order for our dancers to warm up and rehearse.

Dressing rooms

We require at least 3 dressing rooms to accommodate 5 artists. The rooms must be clean, well lit and heated. Each room must be equipped with tables, adequate lighting for make-up, chairs, mirrors, toilets, sinks and showers as well as a costume rack, hangers and towels.

Contact

In case of questions, you can reach us during office hours and ask for Yannick de Regt.
